

M. ZOHAIB

Nishat Colony, Lahore | +92 328 9485395 | zohaibqureshi754@gmail.com

Professional Summary

Sr. Mern Stack Developer specializing in architecting scalable RESTful APIs and implementing complex React components to enhance application performance and responsiveness. Proficient in Node.js, Express, MongoDB schema design, and indexing strategies to ensure high availability and efficient data management. Focused on driving innovation and reliability through best practices and cross-functional collaboration to deliver seamless user experiences.

Work Experience

Sr. Mern Stack Developer | Nexsinq | Sep 2025 - Present

- Architect scalable RESTful APIs using Node.js and Express to ensure high availability and seamless integration with front-end applications.
- Implement complex React components that optimize user interaction and improve overall application responsiveness across multiple devices.
- Manage MongoDB schema design and indexing strategies to maximize query efficiency and maintain data integrity under heavy load.
- Conduct thorough code reviews and enforce best practices to maintain code quality and reduce production defects in the development cycle.
- Collaborate with cross-functional teams to troubleshoot and resolve critical issues, minimizing downtime and enhancing system reliability.

Mern Stack Developer | Fiverr | June 2025 - Sep 2025

- Develop user-facing features with React to improve application responsiveness and enhance customer experience across multiple devices.
- Implement server-side logic using Node.js and Express to ensure reliable data processing and maintain high uptime for client applications.
- Design and manage MongoDB schemas to optimize data retrieval efficiency and support scalable application growth.
- Integrate RESTful APIs to enable seamless communication between front-end and back-end components, improving overall system throughput.
- Collaborate on code reviews and debugging processes to increase code quality and reduce time-to-resolution for critical issues.

Jr. Vuejs Developer | AWAYR | April 2025 - June 2025

- Developed and maintained dynamic Vue.js components to enhance user interface responsiveness, resulting in a 25% improvement in application performance and user engagement.
- Developed and optimized dynamic user interfaces using Vue.js, enhancing application performance and improving user engagement metrics at Awayr.
- Developed and optimized dynamic Vue.js components to enhance user interface responsiveness, resulting in a 20% increase in application performance and improved user engagement.

AI Nextjs Developer | YottaCom Technologies | Nov 2024 - April 2025

- Developed and integrated AI-driven features in Next.js applications, optimizing performance and enhancing user engagement through scalable and maintainable code.
- Developed and integrated AI-powered features using Next.js to enhance application performance and deliver personalized user experiences, resulting in a 30% increase in user engagement for YottaCom Technologies.
- Developed and deployed scalable AI-driven web applications using Next.js, optimizing performance and user experience to enhance client engagement and operational efficiency.

Mern Stack Developer | GTech Sources | Sep 2022 - Nov 2024

- Developed and maintained scalable MERN stack applications, optimizing database queries and implementing RESTful APIs to enhance performance and user experience.
- Developed and optimized full-stack web applications using MongoDB, Express.js, React, and Node.js, enhancing system performance and scalability to drive user engagement and business growth.
- Developed and maintained scalable MERN stack applications at GTech Sources, optimizing performance and enhancing user experience to drive client satisfaction and project success.

Education

Bachelors In Information Technology | Virtual University | Sep 2024 - Present

Currently pursuing a Bachelor's in Information Technology, focusing on core competencies in software development, database management, and system architecture. Applying academic theory to real-world projects through full-stack development and modern programming frameworks.

Skills Set

- JavaScript
- Node JS
- Next JS
- MongoDB
- React JS
- Express JS
- MySQL/PostgreSQL
- Restful API's
- TypeScript
